# Everad® Easy Construction

## Simple and professional!

### Make it simple!

Very often, the use of Everad® single-component vinyl or polyurethane adhesives is necessary for gluing wooden parts. Such gluing is mostly carried out with small bottles or drums of polyurethane or vinyl adhesive. To maximise the ease of use of our adhesives, Everad® Construction has developed an adhesive application unit that is both extremely simple and reliable. It is the ideal solution for appreciating the high performance of Everad® adhesives, and for addressing all workplace safety needs and environmental requirements.

### New Everad® Easy Construction

Everad® Easy Construction combines even, quick and effective application of adhesive with very simple procedures: you just place the bottle of adhesive, connect the compressed air hose, fix the required nozzle and get down to work right away. Make it simple! The system only requires an air connection. "Connect the air supply and you're ready to go!". Thanks to its closed bottle packaging, the adhesive has the longest possible life, with consistent workability and performance properties. With the upside down design, the bottle of adhesive can be emptied more effectively. Everad® Easy Construction 1K guarantees optimised quality, improved working methods and significant time and cost savings.

### This process will offer you the following benefits:

#### Cost:

- Extremely simple to install and apply
- Time and cost saving (does away with assembly costs and maintenance costs)
- Low investment in equipment

#### Ease of use:

- Operational at all times
- Clean process
- Lower cleaning needs
- Easy handling with ergonomic handles
- Compatible with Lamello nozzle ranges
- Time saving
- Reliable
- Innovative and ergonomic design
- Optimised workspace
- Adhesive kept protected from air and UV rays

#### Reliability:

- Regular, quick and accurate application of adhesive
- Consistent quality and performance
- Unique design
- Rugged materials
- Strong and resistant
- Pre-drilled holes for fastening on a work bench or trolley
- Maximum life span

### Products:

Everad® Easy Construction RPM: polyurethane adhesive version 802556

Everad® Easy Construction APM: vinyl adhesive version 802555

## CONSTRUCTION

# Everad® Easy Construction

## Simple and professional!

### Environmentally friendly

- Produced with recyclable materials
- No soiled adhesive requiring manual disposal

Less waste is generated and needs to be recycled than with conventional bottles of glue.

### Everad® Easy Construction 1K: Adhesive and accessories

#### Everad® Easy Construction RPM polyurethane adhesive system

**Everad RPM 2631**  
Easy 10.9 kg, MOQ 80 bottles  
802553  
C4 polyurethane adhesive, 15 minutes open time, 45 minutes press time

**Everad HNE D-Col 12**  
Easy 8.5 kg, MOQ 10 bottles  
801506  
Installation cleaner

**Everad HNE D-Col 12**  
5 kg jerry can  
801109  
Application gun cleaner

**Everad PUR Easy 1K Protect**  
900 g box, case of 8  
802498  
Protective anti-adhesive for bottle valve

**Vario nozzle**  
Bag of 10  
305062  
Multiple-hole nozzle without adapter

### Everad® Easy Construction ABM vinyl adhesive system

**Everad ABM 31**  
Easy 10.5 kg, MOQ 80 bottles  
802554  
D3 vinyl adhesive with open time 8 to 10 minutes.
