CELLULAR FOAMS

Everad® Easy Pump 2K

Make it simple !

Make it simple!

Very often, the gluing of foams calls for Everad® TAC 2K two-component water-based contact adhesive technology. For large installations with water-based contact adhesives Everad® TAC 2K, the diaphragm pump process is the most suitable. Everad® has developed a simple, modular and efficient pumping unit.

To maximize the ease of application of Everad® TAC 2K adhesives, Everad® Foam has developed a spraying unit with a design that is both extremely simple and reliable.

It is the ideal solution for making the most of the high performance of Everad® TAC two-component adhesive while addressing all workers' job safety needs and environmental requirements.

Everad® TAC Easy Pump 2K

The system only requires an air connection.
 "Connect the air supply and you're ready to go!".
 Make it simple!

These units are available in several configurations

The Everad® TAC Easy Pump 2K-1 ready-for-use spraying unit is made up of the following:

- Diaphragm pump for adhesive,
- Diaphragm pump for activator,
- Metal support with pressure gauges, regulators and supply valves,
- Pre-equipment for one gun outlet,
- Dip sticks or low container outlet connections,
- Trolley.

The Everad® TAC Easy Pump 2K-2 ready-for-use spraying unit is made up of the following:

- Diaphragm pump for adhesive,
- Diaphragm pump for activator,
- Anti-pulsation system for the adhesive component, which keeps the supply to all guns constant and prevents pressure surges,
- Regulation system for the activator component, for a constant supply of activator to all guns,
- Metal support with pressure gauges, regulators and supply valves,
- Pre-equipment for one gun outlet,
- Dip sticks or low container outlet connections,
- Trolley.

This product will offer you the following benefits :

Cost:

- Extremely simple to install and apply
- No assembly costs
- Minimum operating costs
- Possibility to use one or more spraying guns
