CELLULAR FOAMS

Everad[®] RPM 2635

All in one adhesive !

For gluing sponges

Sponge manufacturing requires very high performance adhesives. Manufacturers need to bond together different materials such as foams, felt, abrasive pads, etc. In addition the performance requirements for finished sponges are very high: resistance to water, solvents, very high temperatures, etc. Everad[®] has developed a one-component adhesive that meets all these requirements.

Everad[®] RPM 2635

Everad[®] RPM 2635 is a reactive adhesive that is easy to use and highly effective. In most cases it is applied by the gluing roller process.

Everad[®] RPM 2635 offers the following benefits :

- 100% solvent-free
- Single-component
- For gluing foams together or to different substrates
- Outstanding water resistance
- Withstands high temperatures
- High final bond
- Adjustable curing speed
- High efficiency
- Quick process
- Simple side application
- Soft joints
- Versatile bonding.
